I can help you with that! The AT&T Cell Booster Pro is a device that acts as a miniature cell tower, and enables you to improve the quality of your organization's indoor wireless service.

To activate your AT&T Cell Booster:

1. Download the AT&T Cell Booster app from your app store or go to [firstnet.com/cellboosterpro](https://www.firstnet.com/cellboosterpro). You can also scan the QR Code on your Cell Booster.
2. Follow the steps to register and set up your Cell Booster.

Go [here](https://www.firstnet.com/help/device-help/cell-booster-pro-faq.html) for all information on Cell Boosters including troubleshooting steps, billing insights and determining if a Cell Booster is right for you. <br>
