I can help you with that! Want to choose add-ons for your wireless service? It's easy with myAT&T:

1. Go to your myAT&T account overview.
2. Scroll to My devices, choose the line for your new add-on, and select Manage add-ons.
3. Scroll to Explore add-ons and choose the add-on you want.
4. Follow the prompts to get the add-on. You did it!

Helpful tip: your FirstNet line may see different options than your consumer line.
