```
Outage
```

Intent

```
#outage
```

Dialog

I can help you with that!

</br>1.Click here to see the Find Outage in Your Area option.

</br>2.Simply select if you need for you wireless service or AT&T Internet, AT&T Phone, or U-verse® TV.

</br>3.After entering an address, the tool will return a message about service in the area. It's that easy!
</br>
